

School project

It is an original and engaging path, dedicated to the students of primary schools, middle and upper secondary schools, which deals with a delicate theme, namely disability.

Video: Tu con i miei occhi guest at G. Bagatta State High School

The approach is that of a journey into a world perceived in a new way. The proximity facilitates empathy and only *by putting ourselves in the shoes of others* we can share their feelings, their point of view, and naturally arrive at a feeling of welcome towards any kind of diversity.

If you are a teacher and you want to guest our project in your school, for information you can contact me:
